© Brochure designed by Ruth Harvey.

Wynnnum State High School is excited to present to the Wynnnum and Manly communities the 'concept plan' for our school as a part of the *State Schools of Tomorrow* project. This multi-million dollar school makeover will renew the whole of the Wynnnum High site.

The new and refurbished facilities will enhance our already excellent student learning programs. The *State Schools of Tomorrow* project will allow the school, already built on strong traditions, excellence in learning and quality community partnerships, to showcase The Arts, Science, Vocational Education and Training and Sport as signature programs. The new and refurbished facilities will allow staff and students to teach and learn in modern facilities.

We hope that you like what you see and that you come and join us in this new and exciting educational journey for the 21st century.

# Wynnum State High School
